Subject: Supply and Application of Thermal Insulation Materials

TO WHOM IT MAY CONCERN

This is to confirm that Proyectos Ebramex, S de RL de CV awarded a contract to Insultec Mexico and Insultec Inc. for the supply and application of hot insulation materials for the Minatitlan Refinery Reconfiguration Project in Minatitlan, Veracruz, Mexico.

The contract price was US\$6,503,000.00 and Insultec scope was performed a detailed takeoff from the drawings and isometrics that we supplied them and calculated all the insulation, cladding and accessory materials required and the complete application of the materials as per PEMEX standard for the project.

The works performed by Insultec meets the safety and quality requirements of the project always ahead with the construction schedule, because they have place at site all necessary equipments, scaffolding and manpower with the correct opportunity.

The supplied materials by Insultec meets the PEMEX standards they was as per schedule and never face idle time for shortage materials including: mineral wool insulation, aluminum cladding and accessories.

Insultec shipped only quality materials from Europe, Mexico and North America and carry all shipping and customs clearance documents as per requirements including quality certificates, packing lists, EUR certificates and ocean bills of lading.

The Insultec personnel were always cooperative, thorough and resourceful and always provided us with assistance and clarification whenever required.

We are pleased to recommend Insultec for performing similar orders and we hope to work with Insultec in the future.

Sincerely,

**Jose Antonio Ochando Saez
Construction Director
